Data Gathering Worksheet

Please ask your IT department or point of contact to extract data using ICD-10 codes for individuals living with sickle cell disease.

1. Number of people with SCD seen for any reason, including ED visits, admissions, or clinic

Number of unique persons seen/year		
2020	2021	2022
_____	_____	_____

2. Number of treat and release ED encounters the individuals above have had in each 12-month period

Number of unique persons seen ED/year		
2020	2021	2022
_____	_____	_____

3. Number of hospital encounters (admissions) the individuals above have had in each 12-month period

Number of unique persons admitted/year		
2020	2021	2022
_____	_____	_____

4. See if you can obtain the aggregate data noted below:

Length of stay

Number of unique persons average LOS/year		
2020	2021	2022
_____	_____	_____

30-day readmission rate

SCD 30-day readmission rate/year		
2020	2021	2022
_____	_____	_____

Top 10 diagnosis codes used in the readmissions from 2022:

_____ _____
_____ _____
_____ _____
_____ _____
_____ _____

5. How many of the individuals (from question 1) have been seen in the hematology clinic over the same period:

Number of unique persons seen/year		
2020	2021	2022
_____	_____	_____
